Haiku 5.5: background runs for almost zero

\$0.10 per 1M input tokens — 10x
cheaper than Haiku 4.5

COST OF ONE CRON RUN

2¢

95k prompt

the same run on Opus 5.5 costs 78 cents

THE CATCH — THE 100K LINE

- above it the rate is 5x
- cache reads count as prompt
- new tokenizer: +30% tokens
- recheck every old budget

WHAT TO MOVE TO HAIKU

- fetcher subagents
- summaries and compaction
- inbox classification
- anything under 100k

WHAT TO KEEP ON OPUS

40%

hallucination rate

plus 162k output tokens per task — 3x GPT-6 Luna
