

VERCEL · APACHE-2.0

Vercel eve — Next.js for agents

An agent is just a directory of files

BUILT IN

- Durable execution
- Sandboxed compute
- Human-in-the-loop approvals
- Subagents and OTel tracing
- Built-in evals

PROJECT STRUCTURE

- Instructions and typed tools
- Skills loaded on demand
- Channels: HTTP, Slack, Discord
- Cron schedules

AT VERCEL

50%+

of commits triggered by agents

up from under 3% six months ago

TAKEAWAY

Convention
beat configuration
one more time

4.2k stars · public beta
