

GITHUB · 32.7K STARS

Claude Code, any model you want

OpenClaude · TypeScript · same agent,
your own backend

WHAT IT DOES

- 16 provider profiles built in
- OpenAI, Gemini, Bedrock, xAI
- Local Ollama out of the box
- Cheap model routed to subagents

FOOTPRINT

3

runtime dependencies total

THE WHOLE CLI IS ONE FILE

NO PHONE HOME

- A CI script fails the build
- 11 telemetry patterns blacklisted
- Own config dir, ~/.claude ignored
- Claude Code not required at all

BUT

"We do not have
Anthropic's authorization
to distribute"

Straight from the project's own LICENSE

TAKE A LOOK

**Worth a look.
Risky in a company repo**
