

GITHUB · 19,100 STARS

System Design in 28 files

Both Alex Xu volumes, condensed to
markdown

WHAT'S INSIDE

- 754 book pages to 28 chapters
- 392 diagrams included
- rate limiter, sharding, payments
- greppable, forkable,
agent-ready

TRACTION

+5.1K

stars in two weeks

19.1K total · no license

WHAT'S MISSING

- zero mentions of LLM or RAG
- nothing on GPUs or vector DBs
- vector means vector clock, 2007
- latency table labeled 2020

TAKEAWAY

An agent drafts half
of this architecture.
They still interview you
