MEASURED ON FASTAPI · 96 RUNS

The skills your agent never opened

A skill loads only when the model decides it should

RIGHT FILE OPENED

100%

with a markdown doc tree

skills hit 59.5% overall and only 33% on applied tasks

WHY A SKILL MISSES

- the model decides if it is needed
- on utility questions it reads code
- descriptions trimmed to a 1% budget
- docs are read by direct instruction

THE DOCS TAX

+28%

input tokens on Claude

Codex pays nothing extra for the same content

THE WHOLE MECHANISM

- one AGENTS.md line: run tree docs
- the filename acts as the description
- the agent opens only what it needs
- Vercel saw it too: 56% skill misses

MORE

A skill is an invitation,
an AGENTS.md line is an order
