

GITHUB · 31K STARS

A local ElevenLabs, in one desktop app

VoiceStudio by debpalash

WHAT IT IS

- 17 TTS and 11 ASR engines
- zero-shot cloning from 3–10 sec
- video dubbing and audiobooks
- runs fully on your machine

TRACTION

31k 

in five months

#1 on GitHub Trending, 9k stars in a week

HARDWARE

- ~6 GB VRAM on the default model
- CUDA, ROCm, Apple Silicon, CPU
- GGUF build for weaker cards
- built-in MCP server for agents

THE FINE PRINT

- 646 languages is ISO coverage
- 82% have under 20 hours of data
- default weights are CC-BY-NC
- so no commercial product use
