

OPENAI · DEVDAY 2026

# Your subscription just doubled in price

Same \$200, half the included usage

## WHAT HAPPENED

- the \$200 Pro plan went back on sale
- included usage: 20x Plus down to 10x
- the old 20x moved into a new Pro 500
- the sticker price never changed

## PRICE PER UNIT OF USAGE

**2x**

**what the same usage costs now**

keeping your workflow on Pro 500: 2.5x

## THE DETAILS THAT MATTER

- the cut goes live on October 30
- GPT-6 Pro in chat: 200 to 100 per week
- 62,500 credits as comp, expiring Dec 31
- hard limits appeared on Sep 25, before the news

## OPENAI ENGINEER, ON X

If you do the math, it will net out at half the dollar compared to the old Pro \$200.

## MEANWHILE, TOKENS GOT CHEAPER

- GPT-6.1 Sol ships at \$2/\$10 per 1M
- that is one fifth of flagship Astra
- Opus 5.5 at \$4/\$20, cache reads down 60%
- per-token falls, per-seat climbs

MORE

**A subscription is not a price.**

**It is a variable  
your vendor keeps moving**
