STATS LIVE IN THE REPO

WHAT YOU GET

- A GUI for the opencode agent
- Mac, Windows and Linux
- Any model provider, not just one
- Skills and MCP shared across a team

THE HONEST PART

- Not pure MIT: /ee is FSL
- Version 0.18, 464 open issues
- No sandbox around the agent
- It edits your files locally

TAKEAWAY

Open source here isn't
about free — it's about
who picks the model
